

## ABOUT CUSHCUSH GALLERY (CCG)

CushCush Gallery (CCG), an addition to CushCush family, is conceived as a platform for creative collaborations in contemporary art + design. It is an alternative gallery that embraces interactions and celebrates multi-disciplinary creativity through explorations of intersections of art, design, materiality, techniques and crafts.

Architect/designer Jindee Chua, co-founder of CushCush, had envisioned CCG as a little oasis within the hectic Denpasar city of Bali. Accessed through a small lane, CCG sits within CushCush studio, a sprawling space that used to be a disused garment factory before CushCush turned it into its home. CCG has its own separate entrance and consists of a main gallery space with 3 smaller studio spaces that can support a wide variety of creative and art programs, as well as a space for showcasing artworks and limited-edition design objects and furniture.

CCG opened in 2016 with a solo exhibition of 'Crucible', presenting a collection of wooden sculptural objects that was the outcome of CCG creative-in-residence program with Australian designer, academic and educator Ross McLeod. At the same time, 'Future Canggu' exhibition was presented by design interns from RMIT (Royal Melbourne Institute of Technology) who responded to a specific site in Canggu, Bali. Working together with LagiLagi initiative, CCG co-organised Charcoal For Children program that consists of a series of workshops and a charity exhibition involving local and international artists and creative communities to explore LagiLagi DIY drawing charcoal together with children.

CushCush Gallery is hosting a year round program of curated exhibitions, residency, workshops and collaborations that focuses on the development of contemporary art + design experiences in Denpasar and Bali, through facilitating exchanges between local and international communities of artists and creatives and Bali.

## DENPASAR2017 EXHIBITION

DENPASAR is a new program at CushCush Gallery (CCG) that aims to put Denpasar in the mapping of art and design route in Bali. Conceived as an annual group exhibition at CCG, DENPASAR aims to represent the aspirations of creative communities in the present.

In keeping with CCG's goal of actively seeking fresh perspectives, potentially intertwining the different disciplines and contemporary art and design to interact and collaborate, DenPasar2017 is introducing artists and creatives who are based in Bali to create works that speak of Denpasar.

Denpasar is the capital of Bali province. It is where the business center and seats of Bali's government are situated. Denpasar city has its own charm, with a more diverse communities resulting from a large number of settlers that have since become residence of Denpasar. These diverse communities live side by side, enriching life in Denpasar. The word Denpasar literally means "Pasar Utara" (North of Market). It reinforces the important role of the market in the development of Denpasar city as it has become today. For this reason, 'Pasar' (market) is picked as the themes for DenPasar2017 exhibition.

CushCush Gallery selected 17 artists from its earlier open call from various creative background to join the exhibition to "observe, understand, and re-learn the meaning of 'Pasar' and Denpasar" with a focus on "market language". CushCush Gallery added "The market is a great platform to get to know the character and soul of a city, as it is a place where everybody talks, looks, and interacts as who they really are."

## ROAD TO DENPASAR2017 EXHIBITION

To facilitate the selected participants, CCG held a "Melali Ke Pasar" (journey to the market) event to brief participants in exploring the theme. MELALI KE PASAR was implemented in one day, and it consisted 2 parts.

DenPasar Talk with invited speakers: Marlowe Bandem and Arief 'Ayip' Budiman. Sharing session with Marlowe Bandem who shared the role of documentation through art and other creative means, which is deeply embedded in Bali's culture, and Ayip Budiman who discussed the importance of 'Sense of place and iconography'.

Participants then joined DenPasar Walk where they visited a variety of markets in Denpasar using a rented Bemo (local van transportation) to experience and explore markets directly. Those markets include: former Pasar Badung, Pasar Kumbasari, Pasar Burung Satria (pets market), Pasar Bunga Mayjen Soetoyo (flower market), and Pasar Kereneng.

## 17 ARTISTS OF DENPASAR2017

## DENPASAR2017 MOVEMENT

DenPasar2017 is not just an art exhibition; we see it as a movement. DenPasar2017 aims to provide a platform for the arts and literature to talk about pasar (market) and Denpasar as a form of its documentation and new image creation in 2017. CCG aspires DenPasar2017 to be the beginning of the mapping of Denpasar city within the art and creative travel routes in Bali.

With that in mind, CushCush Gallery is inviting all parties to support this by providing a space to present the 17 selected open call artists' works and make every corner of Denpasar city a big communal exhibition space. As a movement, DenPasar2017 has involved other invited artists and creative communities that have taken pasar and Denpasar as their main theme in their creation of works. Their involvement is a further collaboration to the exhibition, providing extensive and enriching layers towards DenPasar2017's theme, Market Language.

Meet The Artist sessions will return for DenPasar2017. Meet The Artist was held previously during 'Drawing Future' exhibition, where the audience can learn more and have discussion with participating artists, in this case about their involvement and collaboration in DenPasar2017. There will also be exclusive talks and workshops with invited artists/creative communities and previous speakers throughout DenPasar2017. As part of this movement, CCG is also launching DenPasar2017 Art+Design Map, to be distributed at selected places in Bali, inviting local and international travelers to come and explore Denpasar's unique charm.

**"DENPASAR2017 AIMS TO PROMOTE DENPASAR CITY IN THE MAPPING OF ART, DESIGN AND CREATIVE TOURISM ON THE ISLAND OF BALI, BY PROVIDING ARTISTIC PERSPECTIVES AND STORIES THAT HAVE NOT RECEIVED MUCH ATTENTION, AND INVITING THE WORLD TO COME AND WANDER IN DENPASAR" - CCG**

## INVITED ARTIST / CREATIVE COMMUNITIES IN DENPASAR2017 EXHIBITION

### Urban Sketchers Bali

Urban Sketchers is one of unique creative communities that exist today as they make sketches like photos, functioning to preserve the moments around them. A perfect sketch is not its main goal, rather it is about how to draw quickly and complete a sketch on the spot. The community was inspired by Urban Sketchers Singapore, and was formed on 10th November 2012. It has spread their love and fun of sketching through workshops for the public who like to learn to draw and color quickly.

For DenPasar2017, Urban Sketchers Bali organized sketching trips to different traditional markets in Denpasar, and presents an exhibition of sketches reflecting the scenes of the markets in Denpasar in 2017.

### Swoofone

Since 2015, I Wayan Subudi Yadyana is known as a street artist under the initial Swoofone as his identity. In Bali, especially in Denpasar, there are many street artists who have been actively drawing on the walls of buildings with their artworks, and the 23 years old is one of them that has brought his uniqueness and characteristic to the scene. By using the wheatpaste technique that is still rarely used by street artists in Denpasar, Swoofone has succeeded in getting attention.

For DenPasar2017, Swoofone did 3 street arts at 3 different traditional markets in Denpasar by responding to each of the market scene. He then collaborates with photographer I Putu Eka Permata and videographer Deonny Christ Rantetandung to present the works as 3 photographs and a video clip at CushCush Gallery.

### KitaPoleng

KitaPoleng Community was born out of a sense of love for Balinese traditional arts that are gradually fading due to the rapid development of Bali. Through performing arts, this community is getting public attention with their first performance piece 'Kukusan Paon' that is about the life of Balinese women. Through their performances, KitaPoleng hopes to bring the name of Bali through the media of art.

During the opening of DenPasar2017 exhibition at CushCush Gallery, KitaPoleng performed the premiere of 'Kukusan Peken', a sequel piece inspired again by the life of Balinese women, and did an installation inspired by the piece.

### Masuria Sudjana

Bali born Masuria Sudjana is best known for his ability to capture a candid interaction of people, be it with one another or with the photographer. Being the 3rd generation of photographers in Bali does not automatically made him a photographer. Masuria did not pick up a camera until he co-founded a fashion label for Indonesian youths. Since then, he had fun in photography, exploring fashion, travel, to event documentations. Rediscovering joy in photography made him appreciate his roots more. By keeping records of his grandfather's photos left from the war era of 1930s Bali, Masuria shares with the world what made Bali famous in the first place.

In DenPasar2017 exhibition, Masuria presents selected photographs of his grandfather's and father's together with his own take on Denpasar city, with a focus on the traditional markets scene. Together, the photos give a glimpse of 3 different eras of Denpasar city from 1930s till today.
